## PIN BLOCK

A stable, high quality pin block is essential for the longevity and tuning stability of any piano. This is why Strausburg uses a 19 ply American hard rock maple pin block for unparalleled tuning stability.

German Hammers

Hammerheads and the function they perform in generating the energy of sound transmission are paramount in determining the overall power, clarity and quality of tone in a piano. Strausburg uses the finest German hammer felt for their hammers.

## STRINGS

Strausburg uses Röslau wire to make strings for our instruments. Considered to be the finest string materials in the world, this German made product helps us insure the full tonal range that Strausburg pianos are known for. The correct selection of strings on the Strausburg pianos is one of the important parts of the overall *'European'* sound we have achieved.
